The CCL Bibliography, March 12, 2001

This is the publication list of the ESPRIT working group CCL II (Construction of Computational Logics II). When available, pointers to online-versions of the abstracts and the papers are given. This bibliography is compiled from the information provided by the 14 CCL sites. References to joint works may have multiple occurrences in this listing.

More information on CCL is available at the CCL home page

`http://www.ps.uni-sb.de/ccl/`
